

The Evolution Continues

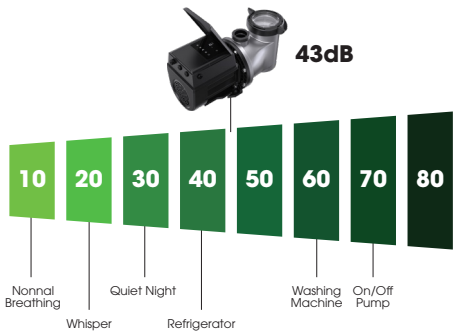

Smart Junction Box

Equipped with 1/2" and 3/4" conduit ports and two integrated relays, the junction box simplifies wiring and automation for faster, cleaner installations.

Unmatched Silence

Designed for ultra-quiet operation, this pump delivers top-tier hydraulic performance with minimal vibration and noise.

Ideal for both residential and commercial installations.

Commercial-Grade Versatility

Features 2.5" standard unions, adaptable to 2" or 3" piping, providing maximum flexibility and flow capacity for demanding pool systems.

Variable-Speed Efficiency

With variable-speed control, the pump consumes up to 50% less energy compared to single-speed models while maintaining strong and consistent performance.

Built-in Wi-Fi Module

The built-in Wi-Fi module connects to the Moov App, allowing full remote control. Program 24-hour cycles and monitor performance anytime, anywhere.

Moov AI 2.7HP	MP3AI
THP	2.7
GPM maximum	185
Maximum Flow Control (PRO)	35-185GPM
Speed Control	30-120%
Noise	43dB
Voltage	240V
Frequency	50-60Hz
Warranty Parts and Labor	3 years
