

The Power of Balance and Efficiency

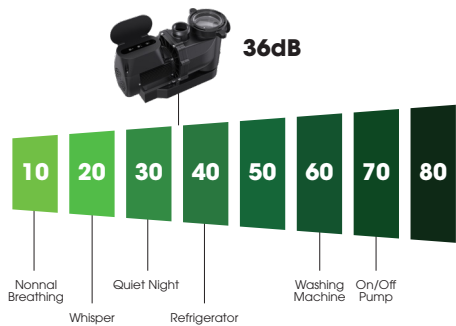

Compact and Powerful

Designed with a compact frame, this 1.1HP dual-speed pump delivers strong performance in a small footprint, ideal for tight equipment pads or retrofit projects.

Extremely Silent

Engineered for quiet operation, it ensures minimal vibration and noise, providing smooth and reliable performance in any environment.

3 Timer Options

Choose between 8, 16, or 24 hours of operation to match your pool’s needs.

Dual-Speed Efficiency

Switch between high and low speeds to optimize flow and energy use.

The 1.1HP motor offers the perfect balance between power and efficiency.
